

ANALYSIS AND CONSULTING

envilab
A PASSION FOR ANALYSIS

ENVILAB Ltd. is accredited as an independent, objective laboratory for analysis, testing and consulting in the environmental field. Serving our clients and the environment that we all share is our passion.

Reliability and quality are our top priorities. So we have optimised processes to deliver as quickly as reliably possible – at the most attractive prices. Our modern laboratory in Zofingen is centrally located and easily accessible.

ANALYSIS

Sampling, field and lab tests including in the following areas:

Water

Spring- and groundwater, surface and leachate, sewage

Micropollutants

Trace element analysis using LC-MS/MS, lab-scale ozone tests, model-based calculations

Decomposition tests

Experimental testing of aerobic and anaerobic decomposition for chemicals, sewage and sewage sludge.

CONSULTING

Excavation and soil

Material from excavation (e.g. from contaminated sites and polluted areas), materials for landfill disposals, arable land

Solids

Waste and building materials, old wood, dust filter particles, slag, street sweeping waste

Building pollutants

PCB, PAH, heavy metals

Sludge/biogas

Nutrients and pollutants, siloxanes in biogas

Air

Tests of air quality of workplaces, building interiors, emissions and immissions

CHEMICAL AND ANALYTICAL CONSULTING SERVICES

ENVILAB offers expert advice on a range of analytical issues including: the selection of measurement procedures, correct sampling methods (preparation and evaluation of results or plausibility tests), monitoring and sampling campaigns, maintenance of industrial labs, solutions for chemical and analytical problems, modeling trace material entering aquatic environments, specific ecological challenges, sampling protocols, analytics software, technical analysis and monitoring, as well as follow-up for contaminated sites and landfills, management of incidents and QM systems assistance.

We are committed to a careful analysis of each task and deliver clear, well-substantiated results.

We look forward to working with you.
